ENJOY IN A DREAMY COMFORT OF ODEJA DREAM COLLECTION

- Odeja Dream Collection is made of high-quality materials. These materials are known for their softness, durability, and luxurious feel.
- The use of superior materials and craftsmanship in this premium bedding results in a softer and more comfortable sleeping surface. This can enhance the overall quality of your sleep and contribute to a more restful night.
- Higher-quality materials and excellent construction methods contribute to increased durability. This means that the bedding is likely to maintain its quality and appearance for a longer period, providing lasting value.
- It features breathable fabrics that allow for better airflow. This can help regulate temperature and prevent overheating during sleep, promoting a more comfortable sleeping environment.
- Is designed with attention to detail, featuring intricate patterns, textures, and luxurious finishes. This can add a touch of elegance to your bedroom and enhance its visual appeal.
- Is designed to be hypoallergenic, reducing the likelihood of allergic reactions or skin irritations. This is particularly beneficial for individuals with sensitive skin or allergies.
- They have moisture-wicking properties. This helps to absorb and dissipate moisture, keeping you dry and comfortable throughout the night.
- It is designed to help regulate body temperature, ensuring a more consistent and comfortable sleep environment. This is especially important for individuals who are sensitive to temperature fluctuations.
- Are designed to be easy to care for, with features like wrinkle resistance and minimal shrinkage after washing. This makes maintenance more convenient for the user.

Pillows

EVA EXTRA SOFT PILLOW

Very soft pillow,
made especially for women

COMPOSITION:

Fabric:
100 % cotton, percale

Filling in the quilting:
100 % polyester, siliconized (150 g/m²)

Core filling:
100 % polyester, siliconized

CHARACTERISTICS:

- the pillow is made of soft cotton fabric and filled with a wonderfully soft filling that gives the pillow a light and voluminous feel;
- carefully selected materials and meticulous craftsmanship ensure that it will retain its softness and shape for a long time;
- the witty quilting indicates that the pillow is made for her;
- the pillow is recommended for allergy sufferers and asthmatics;
- all the materials in it are also kind to more sensitive users.

ADAM SOFT PILLOW

Soft pillow,
made especially for men

COMPOSITION:

Fabric:
100 % cotton, percale

Filling in the quilting:
100 % polyester, siliconized, Cirrus (150 g/m²)

Core filling:
100 % polyester, siliconized

CHARACTERISTICS:

- the pillow is made of a very tightly woven special cotton fabric and filled with a wonderfully soft filling Cirrus that gives the pillow a light and voluminous feel;
- carefully selected materials and meticulous craftsmanship ensure that it will retain its softness and shape for a long time;
- the pillow also has a special playful quilting, which indicates that it is a pillow created especially for men;
- the pillow is also recommended for allergy sufferers and asthmatics;
- all the materials in the pillow are also kind to more sensitive users.

DREAMFIL SOFT PILLOW

A dream-soft pillow
for a relaxed sleep

 With removable
washable cover

COMPOSITION:

Fabric of washable quilted cover:
100 % cotton, percale

Filling of washable quilted cover:
100 % polyester, siliconized, Dream (150 g/m²)

Fabric of inner pillow:
100 % polypropylene

Filling of inner pillow:
100 % siliconized polyester balls

CHARACTERISTICS:

- The quilted pillowcase is made from a cosy cotton fabric that is breathable and soft to the touch;
- the quilted cover contains a filling that is elegantly quilted to keep it in place;
- at the core of the pillow is siliconized polyester, which gives the pillow a wonderfully soft, voluminous and comfortable feel;
- the zipper in the pillow cover allows you to adjust the height of the pillow to your preference by removing the polyester balls in the filling.

CIRRUSFIL SOFT PILLOW

Soft pillow,
filled with premium Cirrus fibres

 With zipper

COMPOSITION:

Fabric of washable quilted cover:
100 % cotton, satin, with hydrophilic application

Filling of washable quilted cover:
100 % polyester, Cirrus (170 g/m²)

Filling of inner pillow:
100 % siliconized polyester balls

CHARACTERISTICS:

- the quilted cover is made of ultra-fine satin with a hydrophilic coating and filled with Cirrus, a special filling with superior breathability;
- the core is made up of siliconized balls that optimally adapt the pillow to the head;
- the pillow's materials effectively wick body moisture into the room, preventing overheating of the head in the neck and thus allowing a more restful night's sleep;
- the zipper in the pillow cover allows you to adjust the height of the pillow to your preference by removing the polyester balls in the filling.

MEMORY FOAM COMPACT PILLOW

Compact pillow
made of innovative memory foam

 With removable washable cover

COMPOSITION:

Fabric of washable cover:
80 % cotton, 20 % polyester

Filling of the pillow:
100 % polyurethane, memory foam

CHARACTERISTICS:

- the core of the pillow contains a special foam that has the wonderful property of always returning to its original state;
- the foam is also characterised by its high elasticity and the perforated core makes it even more pleasant to use;
- the core of the pillow is encased in a soft plush washable cover;
- the memory foam pillow beautifully supports the body while you sleep, and the elasticity and compactness of the pillow are in just the right proportion to ensure optimum comfort.

MEMORY SPRING PILLOW

Memory foam pillow
and pocketed springs

COMPOSITION:

Fabric of washable cover:
67 % polyester, 33 % viscose

Filling of the pillow:
100 % polyurethane,
special viscoelastic foam with pocketed coils

CHARACTERISTICS:

- the outer layer of the pillow is a resilient, heat and pressure-sensitive memory foam that instantly adapts to the shape of your body;
- the memory foam remembers your position while you sleep and allows for total comfort while you rest;
- between the inaudible coil springs, there is plenty of air that flows seamlessly through the pillow for the best heat/moisture ratio;
- the pillow is the perfect support for your spine.

RELAX SOFT PILLOW

A soft linen pillow
for dreamy comfort

COMPOSITION:

Fabric:

50 % cotton, 50 % polyester

Filling of quilted cover:

100 % polyester, siliconized (100 g/m²)

Pillow filling:

100 % polyester, siliconized

CHARACTERISTICS:

- the pillow features a quilted cover with wonderfully soft filling that is distinctly light and airy;
- the pillow's materials effectively wick body moisture into the room, preventing overheating of the head and neck and thus allowing a more restful sleep;
- the pillow is extremely soft and voluminous, making sleeping comfortable and relaxing.

COMFORT SPECIAL PILLOW

Anatomical pillow
for a healthy sleeping posture

COMPOSITION:

Fabric:
50 % cotton, 50 % polyester

Core filling:
100 % polyester, siliconized

CHARACTERISTICS:

- the fabric of the pillow is gentle and pleasant to the touch;
- the pillow has a special design that is particularly suitable for sleeping on your back or on your side, as sleeping with this pillow allows you to keep your spine in a straight position.

MEDICO SPECIAL PILLOW

Anatomical pillow
for excellent neck support

COMPOSITION:

Fabric:
50 % cotton, 50 % polyester

Core filling:
100 % polyester, siliconized

CHARACTERISTICS:

- the pillow has a specially shaped firm edge to provide healthy support for the cervical vertebrae;
- it is filled with a wonderfully soft filling, the flexibility of which allows you to roll the edge over or under the bulk of the pillow to create a head support that gives you maximum comfort;
- the larger part of the pillow is low, but soft and comfortable thanks to the excellent filling;
- it is suitable for those who like to sleep on a very low pillow.

HYGIENIC MEDIUM PILLOW

Firm pillow
with removable washable cover

With removable
washable cover

HYGIENIC EXTRA PILLOW

Very firm pillow
with removable washable cover

With removable
washable cover

COMPOSITION:

Fabric of washable quilted cover:
50 % cotton, 50 % polyester

Filling of washable quilted cover:
100 % polyester, siliconized (100 g/m²)

Fabric of inner pillow:
50 % cotton, 50 % polyester

Filling of inner pillow:
50% siliconized polyester balls,
50% polyurethane, flakes

CHARACTERISTICS:

- the pillow is durable and designed for intensive use;
- the quilted pillow cover contains a filling that is quilted to stay in place;
- in the core of the pillow are polyester balls and polyurethane flakes that create a feeling of pleasant softness and offer the user a healthy support while sleeping;
- the quilted cover can be easily removed and regularly washed separately at a high temperature to ensure the pillow is highly hygienic.

COMPOSITION:

Fabric of quilted cover:
50 % cotton, 50 % polyester

Filling of quilted cover:
100 % polyester, siliconized (100 g/m²)

Fabric of inner pillow:
50 % cotton, 50 % polyester

Filling of inner pillow:
100 % polyurethane, flakes

CHARACTERISTICS:

- the pillow is extremely high and firm. It is therefore suitable for supporting patients, for sitting and reading in bed;
- the quilted pillowcase contains a filling that is quilted to stay in place;
- in the core of the pillow there are polyurethane flakes, which give the pillow its characteristic firmness;
- the quilted cover can be easily removed and regularly washed separately at a high temperature to ensure the pillow is highly hygienic.

CIRRUS LIGHT MINI QUILT

Summer lightweight quilt
for children prone to sweating

COMPOSITION:

Fabric:

100 % cotton, satin with hydrophilic application

Filling:

100 % polyester, siliconized, Cirrus (170 g/m²)

Thermal resistance: 3,6 tog

CHARACTERISTICS:

- the quilt is made from premium hydrophilic materials that wick body moisture into the room, reducing body overheating and moisture retention;
- even on hot summer nights, your baby's cot will be a haven of freshness with this quilt;
- the materials make it very suitable for children with allergies and asthma;
- the fresh and light sleeping environment achieved with this superior equipment of the cot allows sensitive children to sleep soundly and peacefully.

EVA EXTRA QUILT

A very warm quilt

COMPOSITION:

Fabric:

100 % cotton

Core:

100 % polyester, siliconized, Dream (400 g/m²)

CHARACTERISTICS:

- this quilt is made from an extremely cosy cotton fabric and filled with a wonderfully soft filling;
- the filling fibres are extremely light, soft and warm;
- thanks to the unique quilting in the shape of a woman's body, it adapts perfectly to her body and at the same time indicates that this is her quilt;
- the quilt is also recommended for allergy sufferers and asthmatics;
- all the materials in the quilt are also kind to more sensitive users.

ADAM MEDIUM QUILT

Medium warm quilt

COMPOSITION:

Fabric:

100 % cotton

Filling:

100 % polyester, siliconized, Cirrus (300 g/m²)

CHARACTERISTICS:

- Adam Medium quilt is made from an extremely cosy cotton fabric and filled with a breathable and wonderfully soft filling;
- Cirrus filling has an exceptional ability to regulate moisture and heat, thus creating an optimal microclimate during sleep;
- we warmly recommend this quilt to anyone who is prone to sweating during sleep;
- the quilting design adapts the quilt well to a man's body;
- the quilt is also recommended for allergy sufferers and asthmatics.

INLET DREAMFIL LIGHT QUILT

Summer light quilt

made of soft cotton fabric

COMPOSITION:

Fabric:

100 % cotton, percale

Filling:

100% polyester, siliconized, Dream (150 g/m²)

CHARACTERISTICS:

- the quilt is made of a very cosy fabric, so it offers gentle comfort;
- it is filled with a wonderfully soft filling that is airy, soft and light;
- the quilt is made from a very tightly woven special cotton fabric;
- it is quilted in such a way that the filling retains its position and softness despite intensive use and washing;
- due to its thermal properties, it is recommended for warmer months or very warm bedrooms.

INLET DREAMFIL MEDIUM QUILT

Medium warm quilt
with dream-soft filling

COMPOSITION:

Fabric:
100 % cotton, percale

Filling:
100% polyester, siliconized, Dream (300 g/m²)

CHARACTERISTICS:

- The filling of the quilt is made of soft and gentle fibres that are dreamily airy, light and warm;
- they give the quilt its voluminosity and suppleness;
- the quilt warms your body evenly and embraces you gently;
- it is made of a very tightly woven special cotton fabric, and is quilted in such a way that the filling retains its position, softness and thermal properties despite intensive use and washing;
- due to its thermal properties, it is recommended for transitional seasons.

INLET DREAMFIL EXTRA QUILT

Very warm quilt
with dream-soft filling

COMPOSITION:

Fabric:
100 % cotton, percale

Filling:
100% polyester, siliconized, Dream (450 g/m²)

CHARACTERISTICS:

- the filling of the quilt is made of soft and gentle fibres that are dreamily airy, light and very warm;
- they give the quilt its voluminosity and suppleness;
- the quilt warms your body evenly and embraces you gently;
- it is made of a very tightly woven special cotton fabric, and is quilted in such a way that the filling retains its position and softness despite intensive use and washing;
- we recommend it to anyone who loves fluffy comfort but who, due to sensitivities, cannot use a quilt with down filling.

INLET DREAMFIL DOUBLE QUILT

Double composed
all-seasons quilt

 With fastening buttons

COMPOSITION:

Fabric of both quilts:
100 % cotton, percale

Filling of summer quilt:
100 % polyester, siliconized, Dream (150 g/m²)

Filling of transitional quilt:
100 % polyester, siliconized, Dream (300 g/m²)

CHARACTERISTICS:

- the filling of the quilts is made of soft and gentle fibres that are dreamily airy, light and very warm;
- they give the quilt its voluminosity and suppleness;
- the quilt warms your body evenly and embraces you gently;
- the quilt is composed of two quilts: Inlet Dreamfil Light and Inlet Dreamfil Medium. The quilts are stapled together with rivets. For warmer seasons you can use the light quilt, for transitional periods cover yourself with the medium warm quilt. When you are really cold, staple together both quilts and enjoy their wonderful warmth.

CIRRUSFIL LIGHT QUILT

A lightweight summer quilt,
filled with premium Cirrus fibres

COMPOSITION:

Fabric:

100 % cotton, satin with hydrophilic application

Filling:

100 % polyester, siliconized, Cirrus (170 g/m²)

CHARACTERISTICS:

- Cirrus filling in the quilting is characterised by its superior breathability and its ability to wick moisture away from the body;
- the fabric of the quilt is a premium cotton satin with a hydrophilic coating that has maximum moisture-wicking capacity, thus optimally complementing the properties of the filling;
- the quilt therefore warms the body evenly, preventing overheating and trapping moisture under the it;
- we warmly recommend it to anyone who is prone to night sweats or needs a lighter quilt for summer.

CIRRUSFIL MEDIUM QUILT

Medium warm quilt
filled with premium Cirrus fibres

COMPOSITION:

Fabric:

100 % cotton, satin, with hydrophilic coating

Filling:

100 % polyester, siliconized, Cirrus (340 g/m²)

CHARACTERISTICS:

- Cirrus is characterised by its superior breathability and its ability to wick moisture away from the body;
- it therefore warms the body evenly, preventing overheating and trapping moisture under the quilt;
- we warmly recommend it to anyone who is prone to night sweats;
- the fabric of the quilt is a premium cotton satin with a hydrophilic coating, which has maximum moisture wicking capacity and thus optimally complements the properties of the filling.

SUPERSOFT MEDIUM QUILT

Medium warm quilt
with extra soft filling

COMPOSITION:

Fabric:
100 % polyester, microfibers

Filling:
100 % polyester, siliconized (300 g/m²)

CHARACTERISTICS:

- this quilt is made of high-quality microfibre and filled with pleasantly warm and extremely soft fibres, and is extremely pleasant to the touch;
- the precise and sophisticated quilting ensures that the filling will stay in place even after washing;
- the quilt is suitable for use during transitional periods and for those who sleep in heated bedrooms in winter;
- the quilt is also recommended for allergy sufferers and asthmatics.

SUPERSOFT EXTRA QUILT

Very warm quilt
with extra soft filling

COMPOSITION:

Fabric:
100 % polyester, microfibers

Filling:
100 % polyester, siliconized, Dream (450 g/m²)

CHARACTERISTICS:

- this voluminous and warm quilt is wonderfully soft and very pleasant to the touch;
- the specially treated microfibres accumulate a lot of heat, making the quilt very suitable for use in winter, even in unheated rooms;
- the filling of the quilt will warm your body evenly and give you incredible warm comfort;
- we recommend this quilt to anyone who likes fluffy comfort but who should not sleep with a feather duvet because of sensitivities, as well as to allergy sufferers and asthmatics.

SUPERSOFT DOUBLE QUILT

Double composite quilt
with extra soft filling

With fastening buttons
